

1.000 miles from Austria to the Côte d'Azur  
September 09<sup>th</sup> to 15<sup>th</sup> 2023

## Program

TOWARDS THE RIVIERA - that is the credo of the Tour Grande 2023. The way there leads over the highest pass roads in the Alps and pasts glamorous lakes to the fairy-tale Monaco.

The Tour Grande 2023 will take you to localities that everyone has heard of, to routes that only a few know about. You drive along a selection of the most beautiful roads in Austria, Italy, Switzerland and France - enjoyment pure.

Enjoying the impressive landscape, fun with great cars, challenging interesting special stages. You will stay in castles, villas and grand hotels. You will delight your palate with the local specialities. You drive on roads that lead to romantic dreams. And the limited number of participants guarantees exclusivity.

### **Sa., September 09<sup>th</sup>**

We start from the Grandhotel Lienz over the Stallersattel to South Tyrol. We drive past the Dolomites to Bozen, where we spend the first night.

### **So., September 10<sup>th</sup>**

For me, the Gavia is the most impressive pass of the Tour Grande 2023. Narrow, steep and dark, it winds its way up to 2,621 m. We can then fill up the trunks in the duty-free zone of Livigno. But be careful, there are frequently controls when you leave the country.

### **Mo., September 11<sup>th</sup>**

The route takes us via St.Moritz to the northern Italian lakes of Como, Lugano and Lago Maggiore.

### **Tu., September 12<sup>th</sup>**

Today is a rest day, the shores of Lake Maggiore invite you to relax.

### **Mi., September 13<sup>th</sup>**

Today we take advantage of the fact that tourism has not yet discovered the area west of Lake Maggiore. We continue through the Aosta Valley to Courmayeur.

## **Th., September 14<sup>th</sup>**

Sky striker - that is the appropriate description for the participants today. Via Val d'Isere we drive over the Col De l'Iseran. At 2,770 m, it is the highest pass in the Alps.

## **Fr., September 15<sup>th</sup>**

At 2,802 m, the Cime de la Bonette clearly surpasses it, but that's a dead end road, not a pass. Anyway, we're going up today. True to the traditional route of the Monte Carlo Rally, we reach Monaco via the Col de Turini.

And at the award ceremony in the evening we will pay respect to the three best teams in each class.

## **Special Stages**

It's not just the landscape and roads that make the Tour Grande fun. Around 35 exciting special stages (timing tests with visible measuring points) ensure that the excitement is maintained throughout the whole event.

The Tour Grande is not about being the fastest; the safety of the participants and other road users always has priority!
